## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, drawn to a polymer electrolyte fuel cell having a catalyst layer containing at least two kinds of carbon particles adsorbing a hydrogen ion conductive polymer electrolyte in mutually different dispersed states.

Group II, claim(s) 6-14, drawn to a method of manufacturing a polymer electrolyte fuel cell comprising the steps of adsorbing a polymer electrolyte to first carbon particles supporting a catalyst in a first dispersion in which a polymer electrolyte is dispersed and adsorbing a polymer electrolyte to second carbon particles supporting a catalyst in a second dispersion in which the polymer electrolyte is dispersed.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical feature of at least two kinds of carbon particles recited in Group I is not recited in Group II. Therefore, the method recited in Group II is not specially adapted to manufacture the product recited in Group I. See 37 CFR 1.475.

Furthermore, the product can be made by a different method than that presently claimed such as that disclosed in US Pat. No. 5,766,788 (see col. 4, lines 10-47) where the carbon particles is first loaded with catalyst and then pulverized to obtain carbon particles with two

particle distribution peaks and then impregnating the pulverized carbon catalyst with polymer electrolyte.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications should be directed to examiner Susy Tsang-Foster, Ph.D. whose telephone number is (571) 272-1293. The examiner can normally be reached on Monday through Friday from 9:30 AM to 6:00 PM.
